Doctor Clean

Dr Clean Solutions LLC

Commercial cleaning capabilities

NYC, Westchester NY & Central Florida · Commercial only

Commercial spaces we serve

Offices, medical and wellness suites, retail and showrooms, and managed-property common areas. Doctor Clean provides commercial cleaning only.

Cleaning programs

Recurring commercial cleaning, after-hours office cleaning, commercial deep cleaning, and post-construction commercial cleaning. Tasks, frequency, scheduling and access are subject to the agreed written scope.

Routine and periodic work

Routine examples: restroom and kitchen surfaces, floors and glass, high-touch points, trash and recycling. Periodic examples: detailed restroom and kitchen work, baseboards, edges and corners, and requested cabinet or appliance interiors. These are examples, not a universal package or a promise of specialty work.

Products and equipment

Clients provide cleaning products and equipment. Product preferences can be documented in the written scope.

Where we work

Doctor Clean is a service-area business serving NYC, Westchester County, NY, and Central Florida: Orange, Seminole and Osceola counties, including Orlando, Kissimmee, Winter Park and Lake Mary.

From your space to a written scope

A practical starting point for quote and service questions

Share the basics for a quote

Property type; neighborhood or city; approximate square footage; preferred cleaning frequency; and the rooms, surfaces or priorities that matter most. Mention scheduling needs and client-provided products or equipment. Discuss sensitive access details privately, not in the quote form.

Discuss, walk through if needed, agree scope

We discuss the space and arrange a walkthrough if needed. The proposed written scope identifies rooms, surfaces, tasks and frequencies, along with product preferences, scheduling and access arrangements. Agree the scope before service begins. A quote request does not book an appointment.

Review against the agreed plan

A property manager can use the written checklist to compare the work with the agreed tasks, raise questions about particular areas, and discuss changes when the space or its use changes.

Useful starting points

Request a cleaning quote or ask a service question

See a sample written scope — illustrative, not client evidence
